Medical.

Baltimore Lock Hospital.

DR. JOHNSTON,

Physician of this celebrated Institution, has Discovered the most Certain, Speedy, Pleasant and Effectual Remedy in the World for all

DISEASES OF IMPRUDENCE.

Weakness of the Back or Bladder, Involuntary Discharges, Impotency, Gener al Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Diseases of Sight or Giddiness, Diseases of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youthful, secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the Victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons or Young Men contemplating marriage, aware of Physical Weakness (Loss of Procreative Power—Impotency), Nervous Excitability, Pallpitation, Dyspepsia Weakness, Nervous Debility, or any other Disqualification, speedily relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS,

IMPOTENCY, LOSS OF POWER,

Immediately Cured and Full Vigor Restored.

This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that unverstands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE WARRANTED IN TWO DAYS.

Relief in six Hours! No Mercury!

Persons Ruined by Ignorant, Trifling Pretenders and their Deadly Poisons, should apply immediately.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many have troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN

Who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions or at school, the effects of which are lost sensibly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyment of life, as the consequence of deviating from the path of nature, and indulging in a secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness—indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has inhibed the seeds of this loathsome disease, it too often happens that an ill-timed sense of false delicacy, or dread of discovery deters him from applying to those who, from extensive and universally acknowledged skill in the treatment of the constitutional symptoms of this horrid disease make their appearance, such as unnatural sore throat, discolored nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at length the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration till death puts a period to his horrible sufferings, by sending him to that undiscovered country, "from whence no traveler returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through having intrusted the hands of ignorant or unskillful PRETENDERS, assisted by the use of deadly Poisons, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their nostrums or injurious compounds, and instead of being restored to a renewal of Life, Vigor and Happiness, he sinks into a state with ruined health to sigh over his lamentable condition.

To such, therefore, Dr. JOHNSTON pledges himself to preserve the most inviolable secrecy, and from his extensive practice and observations in the great Hospitals of Europe, and the first in this country, viz: England, France, Philadelphia, and elsewhere, is enabled to offer the most certain, speedy and effectual remedy in the World for all Diseases of Imprudence.

"HOW WILL IT BE?"

When a few more years are over,
And they lay our weary heads
Low beneath the daisy blossoms
With the pale and peaceful dead—
When the lips, which oft have kissed us,
Strive, "Thy will be done," to say,
And they hide us from the sunlight
And the song of birds away—

When our spirits, free from prison,
And these fettering bonds of clay,
Upward, toward the "many mansions"
Speed on tireless wings—away,
Will the loved ones gone before us,
Watch us on our upward flight?
Shall we see their beckoning fingers
From the battlements of light?

Will they meet us at the gateway
When we reach "the better land?"
When we tremble at their glory
Will they take us by the hand?
Will they say, "O, friend beloved,
Pilgrim from the land of time,
We have oft, among the angels,
Sought for lineaments like thine?"

Shall we not among the singers,
While the music floats around,
Recognise some friend departed
By an old familiar sound?
Will not families—united
In their changeless home elysian—
Know each other, when they're gazing
With an angel's perfect vision?

Will not children gladly gather
Round a father or a mother?
Or a sister haste to welcome
Some one who was once a brother?
Will they not in pleasant converse
Speak of earth—life's little story—
As they glide, with feet that tire not,
Down the avenues of glory?

O, when they whose presence to us
Seemeth needful as the day,
Answer to the "Come up hither"
Of a voice they must obey—
When they to our bitter weeping
Answer not with sigh or moan,
But, with pale hands meekly folded
In their dreamless rest, sleep on—
It is sweet to think that ever
They will keep some moral semblance;
And that e'en among the angels
We can trace some old resemblance.
There to earth—names they can answer
While eternal cycles roll—
And their countless years of heaven
Make the lifetime of the soul.

FOR THE LITTLE FOLKS.

JOHN BURTON'S PLEASURE TRIP.

Here was sad news, indeed; all the more that such very different tidings were expected.

"Poor Harry!" said Mrs. Burton, wiping her eyes. "The last time we heard from him he was in such spirits! Mr. Ludlow had just bought the great tract of wild land, and was going to build up a city right along. He made so much of Harry, and promised to give him such chances, besides paying him the very highest wages, that the poor fellow thought his fortune was as good as made. Then was a year—yes, eighteen months—ago, and we have been looking this long time for a letter; but Harry was never any hand for writing, and no wonder, he hadn't the heart to send such news. So Mr. Ludlow has failed, you say?"

"Gone all to pieces," replied the neighbor who had brought the word. "Sim Jones stayed over night in Schenectady with a man who had been on there only a few weeks before. The works are all stopped; the buildings left off, just as it happened; some half finished, some just raised, others done, all but the doors and windows. Of course the men were thrown out of employment, every one. Those that had a little got away as fast as they could. But many had run in debt at the mill and store, expecting their wages soon from Mr. Ludlow—wages that they'll never see a penny of—and they had to stay. They have been getting poorer and poorer, till it's hard to say what they'll come to. It's my belief, Hannah Burton, that your brother's folks actually haven't enough to eat."

What a tale was this to be told in the snug farm house, overflowing with comfort and with plenty! The girls stood aghast at the dreadful picture, and Mrs. Burton's tears flowed afresh.

John Burton was a young fellow in those days, though we are used to seeing his grandchildren about him now, and he had not a bit of the priest nor the Levite in his composition. He remembered how Uncle Harry, a tall, stout lad, used to take him nutting in the fall, or draw him on the sled in winter. One of the brightest recollections of his childhood, was that of Harry's wedding,

The Star & Sentinel.

Friday, April 22, 1870.

Advertisers and others interested will bear in mind that the regular circulation of the "STAR AND SENTINEL" is much larger than that of any other paper published in the County, being read weekly by not less than 11,000 persons.

DEATH OF HON. ROBERT GOODLOE HARPER.

We have the painful duty of announcing the death of ROBERT GOODLOE HARPER, the senior proprietor of the "STAR & SENTINEL," which took place at 2 o'clock, A. M., on Monday morning last. Several weeks ago he took a severe cold, which confined him to his bed, but no apprehensions of special danger were felt by his friends until a few days before his death, when it became apparent that the end was nigh, and his relatives and friends were summoned to his dying bed.

Mr. HARPER was born on the 18th of October, 1799, and hence was in the 71st year of his age. His father ROBERT HARPER, in 1800, removed from Chambersburg to Gettysburg, and established the "ADAMS SENTINEL," Adams having been erected into a county, with Gettysburg as the county seat. The father died in 1816, when his son, ROBERT GOODLOE, then in his 17th year, took charge of and conducted the paper until he reached his majority, when he assumed the proprietorship of the paper. He continued sole editor and proprietor of the "SENTINEL" until the 23d of May, 1867—a full half century—when by the consolidation of the "STAR" and the "SENTINEL" he became the senior member of the new firm. Mr. HARPER, by reason of his long editorial career, covering 53 years, was entitled to be regarded as the "Nestor" of the Pennsylvania press. The "ADAMS SENTINEL" from its establishment in 1800, was always and consistently arrayed against the principles and policy advocated by the Democratic party—espousing the Federal cause, until that organization gave way to the Whig party, with which Mr. HARPER promptly identified himself. Being an adhering Mason during the Anti-masonic agitation from 1828 to 1840 Mr. HARPER found it impossible to cooperate with the dominant party in this county, but continued to battle against the Democratic party, opposing the administrations of Jackson and Van Buren—going so far as to support the re-election of Gov. Ritner in 1838 as against David R. Porter. On the dissolution of the Whig party, consequent on the aggressions of the Slave power and the rise of the Republican party, Mr. HARPER took sides with the friends of Freedom, steadily resisting the effort to nationalize Slavery, and when the contest culminated in armed Rebellion no journal in the land more faithfully stood by the Government than the "SENTINEL." He lived to see Freedom triumph, in the utter overthrow of the Slave power and the enfranchisement of all citizens.

Mr. Harper had rare qualities as an editor. A gentleman of the "old school," and thoroughly conscientious, it was his constant aim to publish a paper high-toned and healthful in its educational influence, which could safely enter the family circle, to be read by young and old. To this end in making selections, he carefully excluded everything of the sensational, or immoral in tendency. While often engaged in editorial controversy, he scorned personalities; and whenever a political opponent left the field of argument for personal attacks, he refused to follow. Thus it came that during a long half century the "ADAMS SENTINEL" continued its hold on the confidence of the people of the county, its editor commanding the personal esteem of men of all parties and all creeds.

From time to time Mr. Harper was frequently called to responsible position—as School Director, Burgess, Trustee of Pennsylvania College, County Treasurer, U. S. Internal Revenue Assessor, &c. On the death of Judge Robinson, Gov. Geary tendered him the position of Associate Judge, which he accepted, discharging the duties honorably and satisfactorily until the election of a successor.

Mr. HARPER was a member of the Presbyterian church, and in his illness, with the consciousness of approaching death, gave satisfactory evidence to all who gathered at his bedside that he died in the full hope of a glorious resurrection.

In concluding this brief and imperfect sketch of our deceased colleague, we can only say that the writer was intimately acquainted with him for a quarter of a century—for several years a member of his family. We knew him well—esteemed him for his manly virtues, high-toned honor, warm generous heart, and fast friendship. His death leaves not only a void in a dearly loved circle of relatives, but in the community of which he was an honored citizen.

Mr. HARPER's remains were interred in Ever Green Cemetery on Tuesday afternoon, attended by the members of the "Gettysburg Beneficial Society," "Good Samaritan Lodge No. 336, A. Y. M.," the officers of the Court and members of the Bar, and a large concourse of citizens. The religious services at the house and at the grave were conducted by Rev. Mr. Hillis and Prof. Ferrier—at the conclusion of which, the remains were consigned to their resting place with the funeral services of the Masonic Order, of which Mr. HARPER was a life-long adherent.

KENTUCKY Democrats are imitating the example of their Maryland brethren, on the negro question, and fighting one another with paper bullets, Senator McCreery being out in a letter denouncing Gov. Stevenson.

THE FIGHT among the Maryland Democracy over the 15th Amendment goes bravely on. At recent municipal elections in various places colored men were allowed to vote without let or hinderance by Democratic election officers. In some of the counties, the Registrers give notice of their readiness to register voters without distinction of color, in pursuance of the advice of Gov. Bowie and the Democratic State Committee. *Per contra*, we have a number of Democratic presses fiercely denouncing the action of the State Committee and demanding that the 15th Amendment be treated as a nullity. Hon. Benjamin G. Harris is out in a lengthy address announcing himself an Independent Democratic candidate for Congress in the Fifth District of Maryland, at the ensuing Congressional election. Mr. Harris charges that the principles of the Democratic party have been abandoned by the recognized leaders and organs of the State Democracy, and sharply criticizes the action of the Democratic Committee and Legislature in recognizing the validity of the Fifteenth Amendment. He appeals from the present and prospective enunciation and action of the leaders of his party to the rank and file of the party itself. Mr. Harris says that if the action of the representatives of his party is sustained by nominating any one supporting the policy of the Committee, "from that moment the Democratic party in Maryland is dissolved."

Lively times are ahead in Maryland, and our Republican friends can afford to abide their time. There are unmistakeable symptoms of a grand "burst-up" among the Democracy on this and other issues. We notice that at a recent meeting of "Conservatives" of the 15th ward, Baltimore, resolutions were adopted severing their connection with the Democratic party, and pledging their support, in the future, to the National Republican party.

THE re-argument of the Legal-Tender cases, which had been fixed for Monday by the U. S. Supreme Court, was postponed until the conclusion of another case in progress of argument.—It was rumored that objection would be made to Justices Strong and Bradley sitting on the case, for the reason that they were stockholders in railroad companies owning bonds issued prior to the passage of the Legal-Tender act, the principal and interest of which, under the recent decision of the Supreme Court, are payable in gold. This objection having been brought to the notice of the gentlemen concerned, Judge Bradley stated that he transferred all his interest in such stocks immediately after his confirmation, and Judge Strong announced his intention to dispose of the railroad shares which he now owns before the case comes to a hearing.

The Legal-Tender cases came to an abrupt and unexpected end on Wednesday. The appellants had settled the cases, and came into Court with an application to strike off the appeals.—Attorney General Hoar objected, and insisted on an argument. The Court, after consultation, announced that the rule in the Supreme Court was to allow appellants to discontinue appeals as a matter of personal right, and hence there was no alternative but to grant the application. Thus the former decision of the Court will stand until a new case can be brought to issue, which will require time, as the Court will adjourn on the 30th. President Grant, being informed of the abrupt termination of the case, expressed his regret that the important question in issue could not be at once definitely settled.

THE discussion of the Georgia Bill drags in the U. S. Senate. During the week powerful speeches have been made by Senators Morton, of Indiana, and Drake, of Missouri, in favor of repressive measures to crush out the spirit of insubordination, violence and murder, so rampant in Georgia and other States. Until some stern examples are made, Union men will not be safe from the villainous outrages of Ku-Klux organizations.

The debate on the Georgia Bill was brought to a close on Tuesday night, after a protracted session extending to 2 o'clock in the morning, and Mr. Pomeroy's substitute to the bill adopted, yeas 37, nays 24. It provides that the present Government of the State is provisional until the State is admitted to Congress, and that an election for a Legislature shall be held on the first Tuesday of September next, to assemble in November preparatory to the admission of the State. The Democratic Senators voted in a body for Pomeroy's substitute, the Republicans dividing. It is a compromise between the original bill and the Bingham amendment. It will now go back to the House.

On Monday, under the operation of the previous question, the House passed Mr. Paine's bill fixing the number of members of Congress at 275, the vote standing yeas 86, nays 83. The increased membership will have to be elected on the States at large, until new appointments are made, say about 25. Of these about one-half will be Republicans, viz:

New Jersey	1	Kansas	1
Missouri	2	Nebraska	1
Michigan	1	Minnesota	1
Iowa	1	Illinois	2

And the balance will be scattered among the Southern States, and will probably nearly all be Democrats. The Pennsylvania delegation voted against it. The action of the Senate is not certain, but the indications are that the bill will pass.

TUESDAY last, April 19, was the ninth anniversary of the passage through Baltimore of the first Pennsylvania and Massachusetts troops, on their way to defend the Capital. The minions of the Slave power mobbed them, tore up the railroad track, and murdered some of them in the streets. A righteous Providence has gloriously avenged the martyrdom. Nine years have rolled around—the Slave power is destroyed—not a Slave to-day treads the American soil, and the equality of all men before the law is the supreme law of the land.

THE "Tweed Ring" of the N. York City Democracy on Monday beat out the "Young Democracy" in the election of officers of the Tammany Association, the "slate" of the Tweed faction being sustained by a vote of 343 to 23. Resolutions were adopted expelling the Young Democracy from the Tammany General Committee and ordering a new election to fill the vacancies.

COLUMBIA, Lancaster county, has the honor of inaugurating negro suffrage in Pennsylvania under the XVth Amendment. At an election held last week, to determine the expediency of building a Town Hall by the corporation, colored people voted without molestation, along with the whites. The Town Hall project triumphed.

THE U. S. Senate has passed a bill providing for a continuance of the income tax, imposing a tax of five per cent. on dividends of banks, trust companies, savings institutions, and insurance companies, and salaries of persons in the civil, military, naval, & other employments of the United States. The other sections of the law, which impose a tax of five per cent. on the gains, profits and income of every citizen, have been postponed for consideration when the general revenue law comes up before Congress for action.—The opposition to a continuance of the income tax is very general over the country. Obnoxious in many respects, it was tolerated as a war measure, but should now be dropped. As the House more largely reflects public sentiment than the Senate, all propositions to revive or continue the tax will be resisted and probably defeated by the House.

THE still unsettled question of lay representation is agitating the Methodist Conferences. The proposed reform has received the approval of the General Conference and of a large majority of the members—male and female—of the Church in a very heavy popular vote. Its adoption now rests with the ministers in the several annual conferences. The sole obstacle remaining is a rule which can only be suspended by three fourths of the preachers. To this technical point the opponents of the measure, under the leadership of Dr. Curry, editor of the *Advocate*, are now addressing themselves. As far as heard from, three-fourths of the ministers have voted in favor of lay representation, with an excess of about 100 votes over three-fourths. The remaining Conferences may sufficiently reduce the majority to defeat the measure.

YERGER, the Mississippi murderer, who was found guilty and sentenced to death by a Military Commission, and subsequently remanded to the Civil Courts, has been admitted to bail in the sum of $15,000 by Judge Shackelford, of the Supreme Court of Mississippi, who thought the case bailable because Yerger shot down and cut to pieces Col. Crane in a fit of anger!—Hereafter, murderers will do well to do up their work boldly and thoroughly—better in broad-day-light and on a crowded street, than under cover of darkness. A horrid butchery of the victim will give clearer evidence of "passion" than a single stab or a deadly bullet. The chivalry of Mississippi will have reason to congratulate themselves on this new phase of criminal jurisprudence.

THERE being an impression that there is a depression in business that has existed for some months, Secretary Boutwell has had an examination made of the *taxes on sales*, in order to test the matter. It appears that from June 30, 1868, to February 28, 1869, a period of eight months, there was collected from taxes on sales alone, $5,624,744, and from June 30, 1869, to February 28, 1870, there was collected from same source, $6,169,688, being an increase of 9½ per cent. in favor of this year, and that, too, in the face of a steady decline in gold and values, which would make the same amount in dollars this year really represent a larger amount of business done.

ALREADY the rebel organs of the South are proclaiming Judge Chase as a nominee for the next Presidency.—Gratitude for recent decisions and the Cincinnati letter inspire "unrepentant" Rebels all over the South.

THE indications from Washington are that the general odium excited by the attempt to renew the income tax has been shown so unmistakably that the majority of Congress will oppose its renewal.

RETURNS from all quarters, of elections held recently, are eminently encouraging to the Republicans. The "great re-action," so long predicted by the Democrats, has not yet commenced.

SENATOR SUMNER has introduced a Postal bill providing, among other matters, for a reduction of postage to one cent for half-ounce letters, and the abolition of the franking privilege.

THE death of Mr. HARPER will occasion no immediate change in the editorial conduct of the STAR & SENTINEL. For the present the paper will be published under the old firm name.

THE STATE SENATE.—The terms of eleven Senators expire, as usual, every year, with the session of the Legislature just closed. This year the out-going Senators are as follows:

3d—David A. Nagle, D.
5th—C. H. Stinson, R.
6th—R. J. Linderman, D.
7th—R. S. Brown, D.
8th—J. Depuy Davis, D.
9th—W. M. Randall, D.
14th—John E. Beck, D.
21st—John Robinson, R.
C. J. McIntyre, D.
26th—Thos. Howard, R.
29th—Morrow B. Lowry, R.

Of the seven Democrats, five are pretty sure of being returned, if nominated, namely: Linderman, Nagle, Brown, Davis and Randall; at least, their districts are hopelessly Democratic. In the Fourteenth and Twenty-first Districts there is every reason to believe that the Republicans will be able to harmonize and elect their candidates, as those Districts are both Republican by good majorities. The Republican Districts above mentioned will be represented by Republicans as now. Messrs. Howard and Lowry, it is understood, are candidates for re-nomination, but Col. Robinson, of Blair, is not. The Democrats are all candidates for re-nomination. Of the Senators holding over, fourteen are Republicans and eight Democrats, giving a Republican majority of six. As there is every prospect that six of the eleven Senators to be elected the ensuing October will be Republicans, the Republican majority in the next Senate will be seven.

Of the thirty-three members of the late Pennsylvania Senate, sixteen were lawyers. In the House 38 of the 100 members were lawyers. Of farmers there were but 5 in the Senate and 7 in the House. In old times, hail our legislators were farmers, and bribery and corruption were unknown.—Now-a days candidates for the Legislature force themselves upon the people, instead of being chosen for their fitness and qualifications for the position. When will we return to the good old practice of the office seeking the man rather than the man the office.

THE Democracy of Missouri, who had decided to have no tickets, and take no part in the coming State canvass, are now discussing the propriety of going through the motions, for form's sake, as preferable to "playing dead." The policy of the thing, as enunciated, is to preserve the skeleton for future rehabilitation in the flesh should there be a chance of resurrection, which some of them affect to think is not a possible event. The pleasures of hope work some strange hallucinations in the Democratic minds now-a-days.

NEWS OF NEIGHBORING COUNTIES.

Its screams awoke the parents who, as would be supposed, were horrified at seeing the little fellow's face all covered with blood.

FRANKLIN.—Emanuel Shroder, in the employ of Isaac Hoffman, near Greencastle, had his left leg broken on the 4th inst., by a tree which he was felling falling on it.—A valuable mare belonging to Mr. David Nye, in Lurgan township, was stolen from his stable on the night of the 18th.—A few days since, a horse, worth $200, the property of Mr. Samuel Killinger, becoming entangled in the halter, was strangled to death.—On the night of the 11th inst., the residence of Wm. Hassler, near Orrstown, was entered by some villain or villains and twenty dollars in "greenbacks" stolen therefrom. A night or two after, the residence of Capt. John Coble in St. Thomas township was entered and some bed clothing and a small amount of silver money stolen from a chest.—The celebration in honor of the adoption of the Fifteenth Amendment is to take place in Chambersburg and Greencastle on the 26th instant.—The "Tom property" at the foot of the mountain, about three miles north-east of Mercersburg, was recently consumed by fire.—A new Company is just ready to commence the building of a road from a point on the C. V. R. R., the station called Marion, four miles east of Greencastle to Mercersburg; then striking the Tuscot Mountain, it is to run along to the Mount Pleasant Iron Works, which will be the present terminus of the road. At this point the Company have fourteen thousand acres of iron ore lands, extending as far as Mercersburg, and with immense deposits of iron ore of good quality. The deposit, it is said, is only exceeded by that of Cornwall, in this State.—Court was in session at Chambersburg last week. John Fillkill and William Streets, having each stolen five chickens, were found guilty and sentenced to 18 months' imprisonment in the Eastern Penitentiary. Henry Gray was found guilty of breaking into the Chambersburg Post office and sent two years to the Penitentiary. Wiley H. Alfred and Andrew U. Collins were indicted for stealing from $500 to $800 worth of clothing from the store of Isaac Clugston in Doylesburg. Their real names are Wiley A. Himes and Andrew C. Unger. Unger claimed that he had been persuaded by Himes, and gave a minute account of the affair. Himes was sent for 15 months to the Penitentiary, from which he had but recently returned. Henry Stoner pleaded guilty to a charge of stealing five turkeys and was sentenced to two months imprisonment in the County Jail.

WASHINGTON.—At Fairview, Zachary T. Jones has been appointed Postmaster.—A new office has been established at Keep Twist, and Henry Mortimer appointed Postmaster.—William Preaner died at his residence in Hagerstown, on the 12th inst., in the 79th year of his age. The deceased was well known in this community, during the reign of the Fugitive Slave law, as a "Nigger Catcher," and was a terror to runaway slaves and colored people generally.

YORK.—On Thursday of last week, a child of Benj. Knisely, of Lower Windsor township, aged about three years, was considerably burned in the temporary absence of his mother. It is supposed that whilst the child was playing with the fire in the stove its clothing ignited.—W. Kirk, Esq., of New Market, died on the 15th inst., in Philadelphia, whither he had gone to purchase his stock of Spring goods.—On Sunday last there were twenty-two new members admitted to Rev. Dr. Baum's, St. Paul's Lutheran Church, in York—17 by confirmation and 5 by certificates. During the services in the morning, a stream of electric fluid passed down the rod on the tower, making a report something like a small pistol, and was sensibly felt in the congregation. A visible scare was manifest although no one was shocked or injured.—Mr. Samuel Forney, residing in Heidleberg township, adjoining Hanover, shot a mad dog on his premises, one day last week.—The Town Council of Hanover have made the following appointments for the present year:—Secretary, D. W. Forney; Treasurer, A. N. Michael; Regulator, Henry Wirt; Supervisor, George Thomas; Police, Hezekiah Trone, Eisgiber, Jacob Folmer, Fence Viewers, D. Slagle, Wm. Trone; Window of Town Clock, J. J. Bingley.—Various tracts of land have recently been leased in Manchester, Conowago and Newberry townships, with a view of digging for coal. Most of the land under lease lies either along the Big Conowago or quite near that stream. A New York Company is said to have leased some land in Newberry township, and intends to hunt for coal. The discovery of any considerable body of good coal in the county, and particularly in that locality, bordering as it does on the Northern Central Railway, would be of incalculable advantage and benefit to York county.—J. S. Forrest, of Hanover, has been arrested and committed for trial, charged with setting fire to the barn of Edward Bair, in that place, on Monday last.—The following gentlemen have been elected officers of the Hanover Gas Company:—President, A. W. Eichelberger; Directors, Geo. N. Forney, C. C. Wirt, C. F. Melsheimer, Joseph Dellone, Isaac Loucks, Samuel Smith.

JEFF. DAVIS AND SIMON CAMERON.—When Mr. Revels took his seat in the United States Senate Mr. Cameron said that he had remarked to Jeff. Davis, as the latter left the Chamber in 1861, that a colored man would be his successor. Jeff. Davis has now written the following letter on the subject:

MEMPHIS, Tenn., March 23, 1870.

My Dear Sir—Yours of the 3d instant reached here during my absence, which will explain the delay in this reply. Senator Cameron made no such statement as that quoted by you. He made no remark to me at the time of my withdrawal from the Senate other than the expression of his good wishes for me. His relations with me have been uniformly those of personal kindness, and I have expected him, as a duty to himself and to truth, to deny having made such remarks as have been imputed in the newspapers.

Men then had not reached the degree of destitution which caused the withdrawal of States from the Union to be called "Rebellion," and the only remark, so far as I know, made by any Senator, which had the least practical bearing, was the expression of Mr. Hale, of New Hampshire, that he expected to all soon to come back.

Very respectfully and truly yours,
JEFFERSON DAVIS.

AN attempt was last week made in the New York Legislature to prevent appropriations for sectarian schools, showing that so far as that State is concerned the question has become a political one. Mr. Wood, Republican, moved that the committee on municipal affairs be instructed to report a bill repealing the sectarian clause of the tax law of 1869. Mr. Creamer, Democrat, moved to lay the resolution on the table. His motion was carried by a vote of 16 Democrats, 13 Republicans voting against it. It was a strict party vote, and shows the direction this fresh political breeze is taking.

APPREHENSIONS are felt in quarters particularly informed concerning Indian matters that we will have a serious trouble with the Sioux Indian warriors in less than a fortnight. These Indians feel that they have not been treated by the Government according to the treaty stipulations, and report now to be upward. Should the premises fail within the government have at hand to settle difficulties with the Indians are the line of the Pacific Railroad.—*Washington Chronicle*, April 16.

AN ISRAELITE MOTHER BURNS HER CHILD.—A New Castle, Indiana, correspondent of the Cincinnati *Gazette*, writing on the 7th inst., tells this sad story: Our town was this morning the scene of a most heart rending homicide. The wife of Mr. Wm. Redding has been insane for some two years, with only occasional lucid intervals. She has at numerous times attempted to take her own life, well nigh succeeding once by hanging, and once by cutting her throat. But never until this morning has she made any serious attempt to take the life of any one else, although the husband has lived in continual fear for the safety of his three children. Seldom has he ventured to leave them any time in her care. She seemed rational enough now for some time; has been attending to the duties of her house, and it was hoped she was in fair way to entirely recover. This morning about 7 o'clock, while her husband was working just outside the house, at the yard fence, she was dressing the children. The baby, nine months old, was in her lap. She spoke to the eldest boy (some ten years old), and asked him, "What if I should burn the baby?" The boy answered that he would go and tell pa if she did, and immediately started off where his father was. No sooner was she left alone than she deliberately put the baby in to the stove, with no other clothing on it than its little shirt, and shut the stove door, and then went out to tell her husband what she had done. He instantly rushed in and took it out. Its face and arms, and all the front part of its body was burned into a crisp. Death came to the relief of the poor little sufferer at 10 o'clock, after three hours of the most intense suffering. The mother seemed frantic with grief for a moment, and then relapsed into an utter want of realization of the situation.

BURNED TO A CRISP.—A woman in Cleveland on Friday afternoon about four o'clock put some shavings into the stove, lit them with a match, and then foolishly poured coal oil on the burning shavings. The result was that the fire ran out once in the can, and an explosion followed which sounded like a cannon, and set the whole room on fire in an instant, the very paper on the walls and the window curtains being instantly enveloped in flames.

The poor woman ran screaming into the street, and rolled in the dust. The other occupants of the tenement house ran out after her, and one woman broke her leg in the hurry to escape. Men on the street took off their coats and threw them round the woman, but it took five minutes to extinguish the fire. Her clothes were torn off, flour was thrown on her body, and as soon as possible she was taken into the house.

She was literally burned to a crisp, and the flames even ate into her flesh, penetrating her mouth and nostrils and burned her lungs, so that she avowed before she died that she was on fire inside. She kept repeating, "How foolish I was! How careless I was! Now, I suppose, I must die." She died at 8 o'clock the same evening.

CAN'T GET THE VOTE.—A correspondent of the Wilmington *Commercial* says a committee of the troubled faithful recently called on Senator Saulsbury in Washington for their orders, and that the old hero sufficiently comprehended the situation to pooh-pooh their idea of dividing the negro vote.—This is the way he is reported to have reasured them:

We can't get the nigger vote. The time between this and the election is too short to pull the wool over their eyes. They have got just as much sense about voting as you and I have, and it's no use talking. I've lived among them all my life and I tell you they have got too much sense to vote with us next fall. *They won't do it.* * * * I'll tell what to do—go home and holler "White Man's Party." That's our hold. There's enough of that heeded ignorant white men who vote the Republican ticket that we can get to vote ours, and we can beat 'em yet. Go home boys, and set up a howl—"White Man's Party."—"White Man's Party."—"White Man's Party." Then in two years, when we have another election, *we will have plenty of time to cultivate the nigger vote, and get as much of it as we may want.*

HON. W. H. SMITH, Governor of Alabama, has found it necessary to issue a proclamation, preparing the minds of citizens of certain counties in the State for such extraordinary enforcement of the laws as will insure the suppression of disorder. He congratulates the citizens of a majority of the counties upon the strict observance of the law, and warns the offending districts that "as they sow so shall they reap." No Southern State is better governed than Alabama, yet the distemper of the rebels will not admit of reconciliation with legal authority, and their landless crops out wherever the Ku-Klux organizations are strong enough and close enough to encourage one another. The Governor designates three counties where "sterner measures most of necessity be resorted to," and in these counties he declares he will quarter militia, if the peaceable citizens desire it, assessing the expense of their maintenance upon said counties.

IN Charleston, S. C., the cradle of the rebellion, the ultra secession spirit still prevails. A correspondent writes that while foreigners are received with open arms by the first families, Northerners are snubbed at every opportunity. This feeling extends even to business matters. The trade of Charleston has not revived since the war. The wharves of the city are in the same dilapidated state they were in on the day the city surrendered to the Union forces. The burned district of 1861 has not been rebuilt. Many of the houses and public buildings still show marks of the bombardment. The steamers which ply between Charleston and Forts Sumpter and Moultrie have not been repaired in the least for many years. The obstructions placed in the river by the traitors of the Palmetto State while waging war against the Government are now a serious drawback to the free entry of loaded vessels.

THE CUBAN REVOLUTION.—The tenor of the despatches received at the Department of State from our Consuls in Cuba is to the effect that the main strength of the insurrection has been exhausted, notwithstanding there are many armed insurgents scattered over that part of the Island under their control. Friends of the Cuban cause claim that they cannot be subjugated within the next five years. The insurgents have inaugurated a policy of destruction, and property, both of freind and foe, suffers alike. When the sickly season sets in the insurgents assert that it will be very easy for them to retrieve all the losses of the past few months; but those who are in a position to judge intelligently doubt the possibility of their ever again recovering their lost ground.

DR. SCHENCK'S PULMONIC SYRUP, Seaweed Tonic and Mandrake Pills, will cure Consumption, Liver Complaint, and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work; then the appetite becomes good; the food digested and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the cough, and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, enables it to be thrown off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, by causing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the pills can do—nothing has ever been invented except calomel (and we have which is very near the same, but which is without great care), that will unlock the gall-bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and is obtained from the Sea-weed, which this preparation is made of, assists the secretions, and acts on the gastric juice to dissolve the food with the Pulmonic Syrup, and with the Mandrake Pills (which work great cure), that will unlock the gall-bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and is obtained from the Sea-weed, which this preparation is made of, assists the secretions, and acts on the gastric juice to dissolve the food with the Pulmonic Syrup, and with the Mandrake Pills (which work great cure), that will unlock the gall-bladder and start the secretions of the liver like Schenck's Mandrake Pills.

The great reason why Dr. Schenck's Pulmonic Syrup cures consumption is, they try to do too much; they don't undertake to stop the cough, to stop chills, to stop night sweats, hectic fever, and by doing they derange the whole digestive powers, locking up the secretions and arresting the natural flow of the bowels.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Removes the cause, and it will stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Sore Throat, Cancer, Tumor, Bronchial Troubles unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, other remedies advertised, Bronchial irritation, pleura adhesions or the lungs or a case of inflammation and last of all the liver, in such cases what is to be done? It is not all of the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take those three medicines, which will bring up a change to the stomach, the patient will begin to relish food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up and the patient goes ready and well. This is the only way to cure Consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Seaweed Tonic in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs two hundred pounds, attends professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at the Revere House, New York, every other Wednesday. He gives advice free, but for a thorough examination with his Respirator under the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Directions how the Pulmonic Syrup and Seaweed Tonic and $1.50 per bottle, or $2.50 for both. Mandrake Pills 25 cents a box. For sale by all Druggists.

LIFE IS THE GIFT OF GOD.

When we are sick this life is obscured, under a cloud, darkened with horrors. Experience has taught us certain means, which never fail the their removal. The child receives with his life the seeds of his death. It may take one, or one hundred years, before the seeds bear their sad fruit, but just as sure as the seeds of death ripen, life ceases. Keeping in the grand safeguard, because then will never the seeds of death are taken away, expelled from the body.

GOVERN YOURSELVES BY EXPERIENCE.

My

The Star and Sentinel.

Gettysburg, Friday, April 22, 1870.

Mr. Vincent O'Bold, of Conowago township, is erecting a new barn 115 feet long and 80 feet wide, which will probably be the largest barn in the county.

LARGE STEER.—Mr. Samuel Sneeringer, of Conowago township, this county, recently sold to Messrs. Henry & Anthony, but born in Hanover, a steer which weighed 2,200 lbs.

PRESBYTERY.—The United Presbyterian Presbytery of Big Spring will meet in the U. P. church, Gettysburg, next Tuesday, at 9 o'clock, A. M. A sermon will be preached at 10 30 A. M.

CALLED.—We learn that the Rev. J. B. Anthony, of Mifflintown, Pa., has accepted a call from the York Springs Lutheran pastorate, made vacant by the removal of Rev. D. M. Blackwelder to Mifflintown.

I. O. O. F.—Gettys Lodge No. 124 I. O. O. F." propose to have special exercises in their Hall on Tuesday evening next, the 26th inst., the day set apart by the Grand Lodge of the United States to be observed by the Order as a day of thanksgiving and prayer.

CELEBRATION.—We understand that the colored people of this place are arranging for a Celebration on Tuesday next, in honor of the passage of the 15th Constitutional Amendment. We have not been advised as to the character of the celebration.

HORSE STOLEN.—On Wednesday night last a valuable chestnut bay horse 6 years old, white left hind foot, star on forehead, and 16 hands high, was stolen from the stable of Mr. John Hostetter, of Union township, who offers a reward of $50 for the horse and $50 additional for the apprehension of the thief.

FIRE.—On Wednesday night last, shortly after midnight, persons living in the eastern portion of the town were startled by an alarm of Fire. It seems that in housing the Locomotive in the Engine House below the freight depot, some sparks from the smoke stack had lodged on the rafters supporting the roof. Being a concrete roof of coal tar and gravel it burned fiercely for a while, but the alarm summoned a number of persons to the spot by whose prompt efforts the fire was extinguished after destroying about half the roof.

IGNORED.—We notice in the Court Proceedings of Franklin County, that the Grand Jury ignored the bill against James Rouzer, of this place, who was indicted on oath of Jeremiah Carbaugh, for assault and battery with intent to kill. Mr. Rouzer had been deputized by the Sheriff of this County to arrest Carbaugh, and whilst thus engaged, the latter attempted to escape, when Mr. R. fired a pistol at him. For this Carbaugh instituted the prosecution, and as it turned out that the firing was done on the Franklin side of the line, the proceedings had necessarily to be undertaken in that county.

INTERESTING LECTURE.—Professor Himes, of Dickinson College, delivered a Scientific Lecture on the Solar Eclipses of 1869, at Rheem's Hall, Carlisle, on Friday Evening the 8th inst., to a large and intelligent audience. Prof. Himes was a member of the Government Commission, under charge of Prof. Morton, of Philadelphia, sent to Ottumwa, Iowa, to make observations of the eclipse, and as he gave the results of his own observations of that interesting phenomenon, the lecture, as may be supposed, was highly novel and entertaining. Prof. Himes is a son of Wm. D. Himes, of New Oxford, Adams county.

TEMPERANCE AT YORK SPRINGS.—On Monday evening, April 4, Mr. James Fowden delivered an address on Temperance in the new Town Hall in York Springs. Although the night was inclement a good audience greeted the young Lecturer. Mr. F. is at present prosecuting his studies at Dickinson College but has been teaching the High School in York Springs for the past two months. The Address, we are informed, was a success and displayed originality of thought and very promising elocutionary power in the speaker. The friends of Mr. F. in York Springs predict a hopeful and useful future for him.

DEAD.—BENJAMIN DEFORD, one of the most prominent citizens of Baltimore, died suddenly on Sunday last. He had been spending the afternoon at the residence of a friend, George Bartlett, and was apparently in good health, when he was suddenly attacked with paralysis, and in ten minutes was a corpse. Dr. Smith was immediately summoned, but death had ensued before he reached the house. Mr. Deford was in the 71st year of his age. He was a man of great energy of character, good judgment, shrewd business capacity, and had been successful in business, accumulating large means. He was largely identified with various railroads, steamship lines and banking institutions, and represented Maryland in the Board of Commissioners of the Gettysburg and Antietam Soldiers' Cemeteries. At the outbreak of the rebellion, Mr. Deford promptly espoused the cause of the Union and was a firm and ardent supporter of that cause to the time of his death. He was well known in Adams county by reason of his business relations, and his having married the daughter of Frederick Baugher, formerly of Abbottstown.

APRIL COURT.—The April term of Court commenced on Monday, with the usual complement of business, which will occupy the entire week. His Honor, Judge Fisher, in charging the Grand Jury, after explaining the general priciples of law which were to guide them in their deliberations, took occasion to refer to the increase of crime as the direct consequence of intemperance. He said the number of criminal cases in both York and Adams counties had largely increased during the last few years, and that fully three fourths of them grew out of excessive indulgence in intoxicating liquors. While the laws provided for the licensing of hotels, restaurants, and liquor-stores, under certain restraints and conditions, such licenses were granted as privileges, and not as a matter of right. When licenses are taken out the parties take them with the conditions prescribed by law, and it became the Grand Jury to see that these conditions were observed. They said of liquors without licenses, and all violations of law by licensed dealers, should be promptly presented by the Grand Jury, that the evils of the liquor traffic might be lessened, crime diminished, and society protected.

The case of The school District of Mountjoy township vs. the School Directors and Treasurer of said township, has occupied the time of the Court to be exclusive of other business, and is still on trial as we go to press, (Thursday afternoon.) It involves the settlement of Bounty Accounts, and comes into Court on appeal by defendants from the settlement made by Auditors.

Henry Yaich, indicted on two bills for Burglary to Mat Berlin, on information of Daniel Grimaldine and J. Q. Swartz, plead guilty and was sentenced in each case to two years imprisonment in the Eastern Penitentiary.

True bills were found against Jacob Charles, alias Daniel Conrad, for Burglary, growing out of the robbery of Mr. Schick's store, but no prosecutor the cases will not be tried at this term.

On Tuesday morning the death of Mr. Harper was announced by Hon. Moses McClean, in appropriate remarks, after further complimentary references to the deceased by A. J. Cover, Esq., Hon. D. Wills, Esq., and Judge Fisher, Court adjourned to enable the officers and members of Bar to attend the funeral.

THE CENSUS.—The act of May 23, 1850 under which the Census of 1870 is to be taken, provides the following compensation for Assistant Marshals:

Two cents for every name taken; ten cents for every farm; fifteen cents for every productive establishment of industry: two cents for every dead person; and two per cent. of the gross amount of names enumerated, for social statistics, and ten cents per mile for travel. It will be seen by the forgoing that the compensation allowed an assistant or enumerator, provided the district allotted to him shall not contain less than 20,000 persons, will be about $600. If the Marshal appoints four assistants for Adams county, as seems now to be understood, the pay to each will be about $300. In 1860 the population of the county was 28,006. It will not now reach 40,000, so that each of four sub-districts would contain less than 10,000 inhabitants.

The law provides that each assistant, after qualifying, shall perform his duties by a personal visit to each family in his subdivision, and shall ascertain by inquries made from some members of each family if any one can be found capable of giving the information, but if not, then of the agent of such family, the name of each member thereof, the age and place of birth of each sex, color, etc., and shall also visit personally the farm, mills, shops, mines or other places respecting which information is required, and when such information is obtained and entered in his blanks then his memoranda shall be read to the person furnishing the facts for revision.

There is a penalty for refusing to furnish the required information to the assistant. The act provides that every person more than twenty years of age belonging to any family, in the case of the absence of the heads and other members of the family, shall be an agent of such family, and is required to render a true statement of the information required, on pain of forfeiting thirty dollars, to be sued for and recovered in an action of debt by the assistant to the use of the United States.

TRANSFERRED.—Rev. L. M. GARDNER, of the Methodist Episcopal church, who for some years was located in Baltimore, has been transferred from Baltimore to Pittsburg, his present address being 54 Liberty street. Mr. Gardner is a son of George Gardner, deceased, of York Springs, in this county, and is a graduate of the "Star" office. On the completion of his apprenticeship, he determined to devote himself to the Gospel Ministry, and after private study and preparation was ordained. He is a young man of talent, and has been eminently successful, as is evidenced by his being assigned to important charges in Baltimore and Pittsburg.

GOOD TEMPLARS CONVENTION.—A Convention of the District composed of York and Adams counties, will meet in the Hall of Gen. Reynolds Lodge, No. 180, I. O. of G. T., Gettysburg, on Thursday the 28th of April, at 7 o'clock, P. M., to continue two days. Hon. Simeon B. Chase, Grand Worty Chief Templar of Pennsylvania, will be present and will deliver a public lecture, in the Presbyterian Church, at 8 o'clock, P. M., on Thursday the 28th inst., to which the public are cordially invited. E. H. Rauch, Esq., of Lancaster, Pa., is also expected to be present.

ELECTIONS.—An election for President and six Directors of the Littlestown Railroad Company will be held in Littlestown on the 4th of May, between the hours of 2 and 4 o'clock, P. M.

On the 3d of May, between the hours of 10 A. M. and 2 P. M., an election will be held for seven Directors of the Littlestown Savings Institution.

During the heavy storms, on the 18th inst., while the hands where engaged in the Coal Mines on J. Collings's farm, near Bendersville, the embankment caved in and caught one of the miners, bruising him very badly but not dangerously.

TRIBUTE OF RESPECT.—At a meeting of the Philomathaean Society of Penn's College, the following preamble and resolutions were adopted:

WHEREAS, It has pleased an allwise Providence to remove from our midst our beloved Philo brother, Victor W. Forrer; and WHEREAS, We deeply mourn the loss of our universally esteemed friend—be it

Resolved, That in his death we feel that our Society has lost one of its most useful and talented members.

Resolved, That while we mourn our loss we rejoice in the assurance that our loss has been his eternal gain.

Resolved, That we extend our deepest sympathy to all the friends of the departed.

Resolved, That our Hall be draped and that we wear the badge of mourning for thirty days.

Resolved, That a copy of these Resolutions be sent to the parents of our deceased brother, and be published in The Miner's Journal, and Gettysburg and Church papers.

S. E. BUSSER,
J. L. KENDLEHART,
D. W. CASSATT,
Committee.

CLASS TRIBUTE TO THE MEMORY OF VICTOR W. FORRER.—In sincere grief, we, the Senior Class of Pennsylvania College, pay this last tribute of love and esteem to the memory of VICTOR W. FORRER, the third of our number who has been removed from us by death within a year.

In the death of our brother we feel that we have lost a beloved classmate. His intellectual stability was such as to raise him to a high standing in the class and he had also a quick, intuitive perception of what is grand and noble.

To his social qualities no eulogy can do justice. He won the affections of us all by his unselfish and impulsive generosity.—His splendid voice so often heard in our popular College songs made him a general favorite.

Those of us to whom his spiritual nature was best known have had many proofs of his fervent faith in the Redeemer. His presence in the Class-prayer meetings gave them additional attractiveness.

Knowing his worth we can truly sympathize with his many friends and consider their bereavement in great part our own.

When we think where his glorified spirit now is we are encouraged to strive to fulfil his last request of us—to meet him in Heaven.

In behalf of the Class,
J. A. HIMES.
FRED. M. OTT,
J. C. FELTY.

TRIBUTE OF ESTEEM.—WHEREAS, An All-wise Providence has removed from our midst our beloved and highly esteemed brother, VICTOR W. FORRER; and WHEREAS, We deeply mourn and sincerely sympathize with his bereaved friends who were called upon to witness his prostrated illness and youthful close—be it

Resolved, That in his death we have lost an affectionate brother, an esteemed companion, and a faithful friend.

Resolved, That while we condole his loss, we rejoice that his death was made so peaceful and happy by the presence of the Saviour.

Resolved, That his earnest sympathy, exemplary character and kindred love, command our warmest admiration and we hope will secure our constant imitation.

Resolved, That in this their severe trial, we extend our cordial sympathy to the family of the deceased, hoping that they may be comforted by the consolations of the gospel.

Resolved, That our Hall be draped, and we observe the usual ceremony of mourning.

"PARIS BY SUNLIGHT AND GASLIGHT."—A work descriptive of the Mysteries and Miseries, the Virtues, Vices, Splendors, and Crimes of the City of Paris.—By James D. McCabe, Jr. National Publishing Co., Philadelphia.

We know of no book that we have read with more pleasure and profit to ourselves than this. It abounds in sparkling descriptions of the gay Metropolis by night and day, and the pictures of celebrities in that wicked but fascinating city are perfect.—We wander amidst the time-hallowed monuments of the past, are dazzled by the magnificence of the present, dine in the glittering Cafes of the Palais Royal, stroll with the merry crowds along the Boulevards, and look on at the Jardin Mabille, where the original *Can-can* is nightly danced to the most voluptuous of strains. Our author seems to have the nice discrimination of an artist, and paints only those pictures for his readers which will be gladly seized upon and appreciated. There is, however, no point of any interest that he slights, and one may read this book and easily imagine himself beholding the very thing he reads of. It is a forcible illustration of the old adage, "truth is stranger than fiction," for the author has given us pictures which, though true to the life, are so strange and seemingly full of romance, that one can hardly believe them real. But the book is far from being an exaggeration. Our readers will recognize its fairness at once by the moderation of its statements, and the absence of superlatives from its pages, and all who peruse it will agree with us that no more remarkable and deeply interesting book has been offered to the public for many years. How can it be otherwise, when it is a faithful picture of the most fascinating city in the world? It is very absorbing, and we are sure no one who takes it up will put it down unread. It is illustrated with 150 fine engravings, by the best artists of France:—Dore, De Bar, Therond, and others—and the letter press is perfect. The volume is sold only by subscription. It

DEMOREST'S MONTHLY, surpasses itself in each successive number. It is in the strictest sense a model magazine. The utility and beauty of its make up, which includes its Illustrated Poetry, original Music, Household matters, and other interesting features, render it a household necessity. The May number is a real gem. The Raven, by Edgar A. Poe, is beautifully illustrated, and the Fashions are unexceptionable. No family can afford to do without Demorest's Monthly, especially when a good $10 Engraving is given to each subscriber. Yearly, only $3.00. Address, Demorest's Monthly, 838 Broadway, New York.

The May number of Demorest's Young America is as usual full of novelties, entertaining Poems, Stories, Puzzles, Prize Pictures, and beautiful Engravings, including a Chromo. There is no better way to make your home cheerful than to present your child with a year's subscription to Young America. Yearly, $1.50, with a choice of numerous valuable Premiums to each subscriber. Address, W. Jennings Demorest, 838 Broadway, N. Y.

FIRE IN THE MOUNTAINS.—During the past week extensive fires prevailed in the North and South Mountains, those in the latter being plainly visible in Gettysburg. The Hagerstown *Herald* says the fires spread over a large extent of ground, and must have been very destructive of much valuable timber. The smoke arising from these fires settled down in valleys, and impregnated the atmosphere even as far as Hagerstown, imparting to it a hazy, musky apperance.

REMOVED.—Francis Cunningham has removed his Ready-Made Clothing Store to Jacobs' building, adjoining the "Keystone House," on Chambersburg street, and has just opened a new and large assortment of latest style Clothing of all kinds for men and boys' wear, carefully selected, and which he is selling lower than ever. He has also opened, in connection with his store, a Merchant Tailoring establishment, so that customers who prefer it can have Clothing made to order by the best of workmen. Call and see him. april 22-3t

ALWAYS AHEAD.—Capt. NORRIS is determined not to be outdone by rivals, and hence has been brushing up his "Head-Quarters," on the corner of the Diamond and Chambersburg street, (Arnold's corner,) where he has on hand the largest and best assortment of Ready-made Clothing of all kinds, for Spring and Summer use, ever opened in Gettysburg, and which he is offering at astonishing low figures. His stock of Straw Hats embrace all styles, qualities, and prices. April 22-tf.

A DOLLAR STORE.—Mr. S. L. AUERBACH will open a Dollar Store, in the room lately occupied by F. Cunningham on Baltimore street, (opposite the STAR AND SENTINEL office) Gettysburg. The store will be a branch of his Dollar Store in Baltimore, and will contain an endless variety of articles. Mr. Auerbach is in the city now packing up goods for shipment, and will open at the above place, early in the week. The public should not fail to give the Dollar Store a visit. 1t

BOXES.—The attention of dealers in Lumber is directed to the advertisement of Mr. Harmon, in to-day's issue, inviting proposals for the supply of Lumber for boxes in which to ship the Gettysburg Water. As the amount required will be large, owners of Saw Mills may find it to their interest to look into the matter. Hitherto the lumber has been obtained from dealers at the river.

PROF. BENTZ.—Prof. Bentz, of York, made a flying trip to Gettysburg last week, but owing to other engagement's was unable to tune Pianos, &c. He requests us to say that he will return the close of this week and attend to all demands for his services. He will visit Fairfield next week.

Mrs. ZIEGLER continues the Dress making, at her residence in East Middle street, aside of the M. E. Church. She is prepared to furnish all the latest patterns for ladies and children's clothing at reasonable rates. April 22-3t.

FIVE DOLLARS REWARD.—Strayed or stolen in August last, a Setter Gip Dog, white and marked with tan spots.

D. E. JOHNS, Gettysburg.

WANTED TO HIRE.—A man competent to take charge of a small Farm. None need apply unless well recommended. Enquire at this office. 1t

H. B. WOODS, at the corner of York Street and the Diamond, is really selling off his entire stock of *Dry Goods*, Hats, Shoes, &c., at very low prices. He intends to quit business and offers many bargains. The rush for cheap goods, Hats and Shoes, has certainly been to Woods' Store, since he commenced selling off. April 8-4t.

Spring and Summer Goods just received. Read COBEAN & CUNNINGHAM'S advertisement and learn where to buy Clothing, Hats, Caps, Boots, Shoes, Notions, &c., at reduced prices. Baltimore street, opposite Fahnestock Brothers. April 15-1f

Eminent New York and Philadelphia Physicians claim that Dubois' Miss'quoo Powder actually cures Cancer. It is advertised in this issue. 1em

Rev. Henry Ward Beecher preached a powerful sermon on Sunday evening upon official corruption, and illustrated particularly the New York Legislature. He said that "not if Fulton Market is meat hung up and sold more openly than men are quartered and hung up in Albany." He also executed the people who, knowing the wickedness of their representatives, yet talk them by the hand and are friendly with them.

THE RICE DIVORCE SUIT for fraud in age, is causing great excitement in Boston. It should warn young men not to marry in haste. Rice is but 22, his bride 37. He swears that she made him believe she was but his own age, by using Magnolia Balm upon her face, neck and hands. Poor youth. He probably found her elbows weren't quite so soft and pretty. Ought Hagan to be indicted? We know of many similar cases. This Balm gives a most wonderful pearly and natural complexion, to which we don't object. We like pretty women. To finish the picture, they should use Lyon's Kathalron upon the hair. With pearly chin, rosy cheeks, and soft, luxuriant tresses, they become irresistible.

DIED.

Obituary notices 5 cents a line for all over 4 lines—cash to accompany notices.

FORRER.—At Pine Grove, Pa., on the 13th inst., Victor W. Forrer, in the 20th year of his age. Mr. Forrer was a member of the Senior Class of Pennsylvania College and would have graduated at the coming Commencement. Last fall he took a severe cold, which settled on his lungs, and rapidly developed into consumption, with frequent hemmorhages. He continued, however, to prosecute his studies until within a few months, when he went home to die.—He was a young man of genial character, warm-hearted, and universally esteemed.

FLAHARTY.—On the 13th inst., in this place, Etoll Louise, infant child of Mr. Thomas and Jennie Flaharty, aged 2 weeks.

God gave and God has taken away
The child that was his own.
A child perhaps too much beloved,
And too much dosed on.

This lovely bud, so young and fair,
Called hence by early doom,
Just came to show how sweet a flower
In paradise could bloom.

Should we then grieve, our Etoll dear,
To know how you are blest?
Could we then wish that you were here,
From your sacred place of rest?

Our hearts are sadly pierced to know
That you should leave so soon,
But our wounds will soon be healed,
When we look beyond the tomb.

There, in myriad angels' company,
Our darling Etoll smiles,
Around the throne of Jesus
Where there is no end of time.

HESS.—On Wednesday last, in this place, Frederick Hess, aged 64 years.

MEALS.—Near Wenk's School house, on the 4th inst., Mr. Reuben J. Meals, son of Jacob D. Meals, aged 24 years, 1 month and 12 days.

STITZEL.—On the 12th inst., in Latimore township, Mary, wife of Jacob Stitzel, aged 74 years and 14 days.

Dearest mother, thou hast left us,
Here thy loss we deeply feel,
But 'tis God that hath bereft us,
He can all our sorrows heal.

Yet again we hope to meet thee,
When the day of life is fled,
Then in heaven we hope to greet thee,
Where no parting tear is shed.

SCRIVE.—On the 8th inst., near Littlestown, Charles Scrive, aged 19 years.

STIRRING SOIL AROUND TREES.

Opening or lightening the soil around the roots of trees, either in the spring or fall, for the purpose of letting in warmth, and affording a freer medium for the expansion and developement of the roots, is of great value in promoting the health and vigor of the tree.—All trees, whether fruit or ornamental, young or old, indigenous or exotic, are vastly benefited by this process. In old orchards, the soil about the trunks of trees, and to a considerable distance from them, in every direction, should be carefully broken, and the upper surface, to the depth of three or four inches, removed in the spring, every four or five years. The eggs of the circulio and other insects are deposited in this stratum, and, if not removed or destroyed, will produce insects, the ravages of which the succeeding year will be productive of far greater loss than the expense of removing the soil, and replacing it with compost or loam. It is an utterly hopeless undertaking to attempt the cultivation of good fruit, when no measures are resorted to to obviate the fatal ravages of this detestable and insidious foe, and the remedy now suggested is by no means expensive, if we take into consideration the advantages otherwise resulting to the trees from its application.

Any good soil, taken from the open fields or cultivated lands, may be used as a substitute for compost, and a very small quantity will suffice. Even if no fresh matter is applied, I would recommend the removal of the surface soil, and would replace it when convenient.—Chip manure, or old dung covered with straw, answers well for that purpose.—*Germantown Telegraph.*

GREASING WAGONS.—Few people fully appreciate the importance of thoroughly lubricating the axles, etc., of wagons and carriages, and still few know what are the best methods of applying them. A well-made wheel will endure common wear from ten to twenty-five years, if care is taken to use the right kind and proper amount of grease; but if this matter is not attended to, they will be used up in five or six years. Lard should never be used on a wagon, for it will gum around the linch, and work itself out around the tenons of the spokes, and spoil the wheel. Tallow is the best lubricator for wooden axle trees and castor oil for iron. Just grease enough should be applied to the spindle of a wagon to give it a light coating; this is better than more, for the surplus put on will work out at the ends, and be forced by the shoulder bands and nut washers into the hub around the outside of the boxes. To oil an axle-tree, first wipe the spindle clean with a cloth wet with spirits of turpentine, and then apply a few drops of castor oil near then shoulders and end. One teaspoonful is sufficient for the whole.

FENCING.—See that the fences are in perfect condition. The old worm fence is a waste of timber, and the time is now approaching when our forests must be spared as much as possible.—The heavy floods that have proved so destructive of late years, have been caused by the reckless manner in which we have cut down our forests. But fencing stuff must always be in request, and its careful use is therefore most desirable. Whenever new fences are to be made, the extra cost for constructing them is compensated by the better security they afford, the smaller quantity of timber they take, and the longer period they will last. If the season admits of it, go to work and get out roughly in the woods the fencing stuff that may be wanted, and have it hauled to the barn, or under cover, where the rails can be pointed and the posts hewed and mortised as opportunity may offer.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform cleanness and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, *Ayer's Ague Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it is nowise loiters any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
